LIGHTS AND SHADOWS OF THE WAR

Correspondence of the Associated Press

ATHENS, Feb. 9.—Whatever the outcome of the war with respect to Serbia as a nation, the future generation of Serbians is assured. Not only have numbers of individuals interested themselves in the fate of the children of the war-devastated land, but the government of the French republic has constituted itself the guardian of every Serbian child in need, and offered to provide for the bringing up and education until the age of fifteen of every off-spring of the race that has so valiantly defended its national heritage to the bitter end. Already several hundreds of orphaned Serbian children have been sent from Saloniki to France where they have been placed in French families that have volunteered to look after them.

Meanwhile, Madame Grouitch, the American wife of the Serbian under-secretary of foreign affairs, has established a fund in the hands of Constantine Mela, of Athens, by which a franc a day is paid for the support of the needy children of Serbian officers and functionaries of the Serbian government.

"Very often," she explained to the Associated Press representative, "the families and especially the orphan children of people of this class suffer more than those of the poor. Those who have never had much soon ad-

just themselves even to the hardships that have accompanied this war. It is those who have had everything and lost it all that are to be pitied." Mrs. Grouitch should know whereof she speaks, for when she and her husband left Serbia they were forced to make their way through Albania afoot, and they arrived in Athens only with what they stood in.

In addition to these provisions for the larger children, the babies too are being cared for, in preparation for the new generation of Serbs upon whom will fall the remaking of their land. In Nish the Mabel Grouitch baby hospital, through the hands of the invaders, still shelters its tiny charges, who are under the watchful eyes of the American doctors and nurses who remained in Nish when the Serbs themselves were forced to flee the victorious Bulgars.

A great many Serbian babies, however, were brought out of the country by their mothers or relatives, and not a few have been born since the exodus. For these Queen Sophie of Greece has made provision by setting aside a ward in her babies' hospital in Athens for the exclusive care of Serbian babies. The ward will accommodate a hundred babies and it is in charge of a competent Dutch woman. The children, and adults as well,

who arrive in Athens temporarily destitute until they can secure funds or work or get into touch with relatives or friends, are also provided for. The former municipal hospital at Athens has been turned into an emergency lodging house for refugees from Serbia of this class, and Madame Grouitch has given five thousand francs to start a fund for the feeding and immediate succor of these unfortunates.

Generally speaking, the Athenians are moved to do what they can to help the Serbian refugees. One restaurant keeper, for example, gives all Serbs a twenty per cent discount on their meals. There may be a certain element of guilty conscience in the readiness of the Athenians to help the Serbs. One day in an Athenian drawing room a Greek of prominence, belonging to the king's party, was commiserating a Serbian lady on the fate which has befallen her country.

"What a pity," he said, "that the French did not send more troops to the rescue of Serbia! They might have saved the country from ruin." "Ah, yes, it was a pity," replied the Serbian lady. "But after all one cannot really blame them. You see, they were depending on the Greeks to keep their pledged word to Serbia."

DIST. ATTORNEY'S OFFICE MAKES GOOD SHOWING

District Attorney Jurich has forwarded to the attorney general his report for the year 1915 as required by law. The report shows that during the year 19 persons were charged in the district court with felonies. Eight of these persons were convicted, one was acquitted and in one case the jury disagreed and the case will be retried, says the Ely Record.

The court expense for the year was \$1,848.05 while for the previous four years the average expense per year was \$5,625.74, showing a saving to the taxpayers of \$3,770.79 for the year 1915.

In the court of Justice of the Peace Edwards, 82 persons were charged with various offenses during the year. Of this number, 73 were either convicted or bound over and 9 discharged. More persons charged with crime were convicted during 1915 than during any previous year.

A DAUGHTER ARRIVES

This morning at 5 o'clock there arrived at the home of Mr. and Mrs. Earl Norris a baby girl. Mr. Norris is tool sharpener at the Mizpah.

AUSTRIAN FEMINISTS TO BE MOBILIZED

(By Associated Press.)

VIENNA, Feb. 9.—Under the joint auspices of the Austro-Hungarian ministry of war and the Austrian women's organization, the women of Austria are about to be industrially "mobilized." The undertaking is the result, firstly of the Austrian women have done since the war, and secondly of a number of conferences Austrian feminist leaders and club women have had with the minister of war and his aides. It is proposed to enlarge as far as possible the industrial and commercial fields in which women are now active and to add new branches in which they may become so, the purpose of the movement being to liberate for military service all men whose places can be filled by women and to give more of them an opportunity to increase their incomes.

The attitude of the Austrian government in the matter was explained in a statement given to the press: "The front is at present the domain of every able-bodied man," says the announcement, "while the woman working for the army is the soldier at home." It is then pointed out that every woman who works in a productive capacity assists the army, firstly, by releasing some men to do military duty, secondly, by keeping the economic machinery of the country in motion without which the men at the front would fare badly.

Thousands of Austrian women are already doing work which men formerly did. Indeed in the branches in which they are employed are many which formerly admitted no woman. The street car conductresses have been a success from the start, as have also the female postal employees, including the women drivers and chauffeurs of mail vehicles. On the railroads they have also been very successful, especially as telegraph operators, ticket agents, and freight department officials. Most of the clerical work of the various governments is being done by women. Firms whose male employees were called to the colors have been obliged to replace these by women. In the ammunition factories thousands of women are said to be doing excellent work. In a plant visited some time ago by the Associated Press correspondent the female employees formed over sixty per cent of the entire staff, even the heavy lathes on which the large shells were being turned were manipulated by women. A few Junos were handling huge ladles with molten steel like a kitchen spoon. Women already work in mines, mills, fac-

TWENTY FEET OF SNOW AT BLUE LAKES

The snowfall in the mountains was unusually heavy during the month of January and reports received at this office yesterday from the Blue Lakes section, state that the snow there is twenty feet deep, the heaviest since the winter of 1889-90. From Markleville we learn that state contractor Merrill succeeded in reaching that place Wednesday from Woodfords in a sleigh. On the divide the snow is estimated to be six feet deep, with drifts of 10 and 12 feet. For some time past the mail has been carried into Markleville on snow shoes.—Gardnerville Record-Courier.

BUSINESS IS GOOD

Chief Dispatcher Small stated this morning that the business on the railroad was heavier this year than for the same period of any year in the history of the company. That all of the extra men were working and they didn't have an extra man on the board. Every caboose is in service and indications are that business will keep up.—Sparks Tribune.

COMMUNICATION RESUMED

Telephone communication has been re-established between Lovelock and Fitting, which was snowbound for more than two weeks. For a few days it was feared the inhabitants of the camp might be in dire distress for fuel and provisions.

ANNUAL STATEMENT

Of the Jim Butler Tonopah Mining company for the year ended December 31, 1915:

Cash on hand, Dec. 31, '14 \$122,667.07
Receipts during year 623,521.15
Disbursements during year 484,634.11
Cash on hand, Dec. 31, '15 261,554.11
